
INTEROFFICE MEMORANDUM

TO: PLANNING COMMITTEE
FROM: GLORIA STEWART
SUBJECT: MEETING SUMMARY 9/19/03
DATE: NOVEMBER 7, 2003

The planning committee met on Friday, September 19, 2003 at 3:00 p.m. The meeting was dedicated to hearing two presentations on the subject of technology education at Marietta College. The discussion took place in the context of the existence of open positions in EMA and Computer Science and the difficulty the College has experienced in recent years in attracting and retaining strong faculty in the computer science area. Representatives of the EMA department presented the rationale for establishing a major in Management Information Systems to replace the current Computer Science and Computer Information Systems majors. Representatives of the Math/computer science department presented arguments to support retaining the computer science and CIS majors while possibly adding a MIS major.
